Forward-Looking Information

This website includes certain “forward-looking statements” and “forward-looking information” under applicable Canadian securities legislation that are not historical facts. Forward-looking statements involve risks, uncertainties, and other factors that could cause actual results, performance, prospects, and opportunities to differ materially from those expressed or implied by such forward-looking statements. Forward-looking statements in this website include, but are not limited to, statements with respect to:

MILE and MILE's business and prospects and objectives, goals or future plans, including the planned deployment of its mobility units; and the business, operations, and management of MILE. Forward-looking statements are necessarily based on a number of estimates and assumptions that, while considered reasonable, are subject to known and unknown risks, uncertainties and other factors which may cause actual results and future events to differ materially from those expressed or implied by such forward-looking statements. Such factors include, but are not limited to: the ability of MILE to meet its deployment targets, access to sufficient mobility units, meeting the requirement of the permits granted to MILE, general business, economic and social uncertainties; litigation, legislative, environmental and other judicial, regulatory, political and competitive developments; delay or failure to receive board, shareholder or regulatory approvals; those additional risks set out in MILE's public documents filed on SEDAR at www.sedar.com; and other discussed in this website. Accordingly, the forward-looking statements discussed in this release, may not occur and could differ materially as a result of these known and unknown risk factors and uncertainties affecting the companies. Although MILE believes that the assumptions and factors used in preparing the forward-looking statements are reasonable, undue reliance should not be placed on these statements, which only apply as of the date of publication, and no assurance can be given that such events will occur in the disclosed time frames or at all. Except where required by law, MILE disclaims any intention or obligation to update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.
